Response to FEC RFAI re. 30 Day Post-General Amended

This RFAI, dated February 5, 2015, requested an explanation for a \$10200 decrease in reported contributions from the original submission. The reduction on contributions was due to the removal of several duplicate entries of contributions. The contributions detailed were only made once but were erroneously entered into the campaign's database multiple times. Some of the larger of these errors gave the appearance of excessive contributions (addressed in prior RFAs). The removal of these duplicate entries correspondingly lowered the committee's reported contributions on the amended reports.
